BILATERAL MEETINGS

10.00 a.m. - 13.00 p.m.

DESCRIPTION INNOSEA is an independent engineering firm specialized in Marine Renewable Energies (MRE): offshore wind (fixed and floating), tidal energy, wave energy, ocean thermal energy, etc ... INNOSEA is a spin-off company from the Ecole Centrale de Nantes.

INNOSEA offers technical expertise and multidisciplinary engineering services for MRE systems and production farms. Our competencies aim to increase the profitability of our Client's projects while preserving the integrity of the systems through their life cycle. Therefore, INNOSEA commercializes engineering solutions tailored to design machines and marine energy production farms.

Our team of MRE experts includes engineers and doctors specializing in aerodynamics, hydrodynamics, structural analysis and geotechnical engineering. Using numerical modeling of offshore structures for design and engineering phases is a key asset of the company.
