## BILATERAL MEETINGS

10.00 a.m. - 13.00 p.m.

**DESCRIPTION** FRANCE ENERGIES MARINES is a research institute devoted to Marine Renewable Energies. The Institute supports the growth of this new industrial sector and covers the whole range of MRE, namely fixed and floating offshore wind, tidal current energy, wave power and ocean thermal energy conversion. Built around a large public-private partnership, France Energies Marines enhances synergies between academics and industrial players through multi-disciplinary research teams.
